Work Experience

INEQE Safeguarding Group

July 2022 – Present, Product Designer

- Design and deliver mobile (iOS & Android) and web-based digital products for government and public sector organisations.
- Lead end-to-end UX processes, from research and user journeys to prototyping and final delivery.
- Create accessible, WCAG-compliant solutions that improve usability and user engagement.
- Contributed to large-scale platforms including Safer Schools across the UK and Ireland in partnership with Zurich Municipal and the Department of Education.
- Collaborated with organisations including the Premier League, Sport Ireland, and the Irish Football Association.
- Support front-end implementation using HTML, CSS, and JavaScript to create visually appealing responsive solutions for clients.
- Contribute to marketing and brand development through the creation of digital graphics, social media content, and visual assets.
- Design and produce animated JSON assets (Lottie) for use in mobile app splash screens and UI interactions.
- Edit and produce video content including product teasers, trailers, and marketing materials to support product launches and campaigns.
